

## NABat – Refuge Specific Details

**Survey Name:** North American Bat Monitoring Program (NABat) – Acoustic Points

**Survey ID:** FF01RBRL00-048

**Refuge:** BRL

**Primary Refuge Contact:** Ben Wishnek, Wildlife Biologist  
Email: [benyamin\\_wishnek@fws.gov](mailto:benyamin_wishnek@fws.gov)  
Office Phone: 208-847-1757  
Cell Phone: 208-241-1827

### Refuge Specific Information.

Refuge:				
Sample Unit ID <sup>1</sup>	Point ID	Point Name	Latitude <sup>2</sup>	Longitude
90860 (Conus 10K)	A	NABATALDE1	42.21546	-111.34344
	B	NABATNDIN1	42.23634	-111.34827
	C	NABATNDIN2a	42.22750	-111.33184
GRTS ID 12142				

<sup>1</sup>CONUS10K number from the bat grid shapefile

<sup>2</sup>Latitude and Longitude in decimal degrees

### Notes or directions regarding sample locations and/or access.

NABATALDE1 – Head north along Alder dike from bridge crossing Paris Dam and walk to point which is on the bank of canal east of the dike.

NABATNDIN1 – Enter northwest corner of North Dingle unit on ramp made for heavy equipment just south of refuge entrance sign. Cross over bulrush slough and travel east along edge of bulrush and seasonally flooded habitat until point is reached. Choose a week either before haying begins (August 1) or after hay has been harvested to avoid conflicts with swathers and balers operating.

NABATNDIN2a – Drive south through opening in fence along south side of hay unit U-113 continue driving through opening in slough used by swathers and balers for haying. Travel east along edge of bulrush and seasonally flooded habitat until point is reached. Choose a week either before haying begins (August 1) or after hay has been harvested to avoid conflicts with swathers and balers operating.
